The Register Entry Date allows you to differentiate between the date the person became, or ceased to be a PSC, and the date on which the event was entered in the company's statutory registers.

Under current legislation, the registration, or cessation of a PSC should be entered in the Company's registers within 14 days of the event.

Existing PSC records will automatically be updated. The Register Entry Date on a Registration will be set to match the Event Date. Where a Cessation Event Date has been entered, the Register Entry Date will be set to match the cessation date.

PSC Events: Forms PSC01 – PSC07

From 9 November 2017, Companies House will require all changes in PSC records to be submitted on new versions of form PSC01-PSC07 (and their LLP equivalents). The new forms contain a field for the Register Entry Date.

The PDF and electronic (XML) forms have been updated in the following events, to produce the new versions of these forms:

- PSC(s) Registration & Cessation by company
- PSC(s) Change of Details by company
- PSC Registration & Cessation by appointee
- PSC Change of Details by appointee

Please note that Companies House will not accept older versions of these forms after 9 November 2017. Any old-style forms filed after this date will be rejected.

Personnel Details (Individual): Nationality & Residency

From 15 December 2017, Companies House will require any filing that contains a Nationality or Usual Place of Residence to contain a value from their new lists of allowed nationalities or countries.

The Add Personnel (Individual) and Personnel Details screens have been updated. When typing in the Nationality or Residence fields, PCSec will prompt you to select an entry from Companies House's list of allowed values.

Please note that after 15 December 2017, Companies House will reject any form that contains either a Nationality or Usual Place of Residence that doesn't match a value on their list.

Other product enhancements

This v9.0 update also contains the following product enhancements:

- Confirmation Statement event. Users are now able to produce a paper only CS01 form if an electronic filing authentication code is not available for a company.
- Data Check. This will now bypass known data issues, that previous prompted an error message.
- Company Details, SIC Codes. Obsolete SIC codes have been removed from the selection list.
- Share Class Currencies. The addition of 20 new currencies to align with ISO standards.
